(b) the steps being taken to ensure timely completion of these projects?

THE MINISTER OF WATER RESOURCES (PROF. SAIF-UD-DIN SOZ): (a) and (b) The selection of site for irrigation projects is governed by many natural and hydrologieal factors which *inter-alia* include resource availability. The regions/areas to be benefited by irrigation projects are mostly governed by the topographical features. In the water sector, especially for major and medium projects and to some extent smaller projects too, the projects cannot be customized to target identified populations and weaker sections as this will go against the principles of comprehensive and integrated planning, project viability and optimum utilization of scarce water resources. However, the command areas of major and medium projects, in general, cover the tribal areas as well.

Irrigation is a State subject and the planning, execution, funding, operation and maintenance of irrigation projects are primarily the responsibility of the State Governments based on their priorities. The Central Government has been providing Central Loan Assistance under the Accelerated Irrigation Benefits Programme (AIBP) since 1996-97 for such approved irrigation projects which are in an advanced stage of construction and beyond the resources capability of the States that can be completed in the next four financial years.

Erosion of river Ganga

1624. SHRI PRASANTA CHATTERJEE: Will the Minister of WATER RESOURCES be pleased to refer to the answer to Unstarred Question 99 given in the Rajya Sabha on the 16th July, 2002 and state:

(a) the names of the short term works identified by Expenditure Finance Committee Memorandum which are to be completed by the Tenth Plan period; and

(b) what is the present status of those works?

THE MINISTER OF WATER RESOURCES (PROF. SAIF-UD-DIN SOZ): (a) and (b) In continuation of the information furnished earlier the name and status of schemes for West Bengal, included in the Centrally Sponsored Scheme (CSS) "Critical anti erosion works in Ganga Basin States" during Tenth Plan is enclosed as Statement-I and II.
